

FIG. 1

Diagram illustrating the layout of a disk system, showing concentric circles representing tracks. The diagram is divided into five concentric regions, each labeled with a specific area:

- Mastered File System Area 21**: The innermost region.
- Mastered Area 22**: The region immediately surrounding the innermost area.
- File System Area 23**: The region surrounding the Mastered Area.
- Disk System Area 20**: The region surrounding the File System Area.
- e Area 24**: The outermost region.
